I was informed after being assigned to this series that it was apparently cursed. Every time an editor is chosen for it, they give up later. I can definitely attest now that typesetting for Kemeko DX is a veritable nightmare, but I'm gonna see if I can beat the curse so that all of you can keep reading this interesting series in a more timely fashion.

Keneko Deluxe! 2 AFTERWORD

Hello, Iwasaki Masakazu here!
Thank you for buying Keme-dera's 2nd volume!

This time, during the serialization of this 2nd volume,
many things happened...
I finally bought a cell phone (Though I actually just keep it at home!)
I got my own computer (But haven't connected to the net!)

...Oh, I guess that's about it.
Nothing much happened especially.
In fact, I guess a lot of things regressed... (¬_¬")
With that, I hope you enjoy volume 3 as well!
